WOW!

5 AMAZING MOMENTS FROM The Doctor's Daughter

Our favourite bits from the latest episode!

1

Jenny! She was brave and clever and sadly died saving the Doctor. Luckily, she was brought back to life but the Doctor thinks she's dead.

2

The Hath. What strange new creatures – and what were they saying? Who knows, but luckily Martha seemed to understand!

WHO WATCH!

3 Martha's trip to the surface. It took a lot of guts for her to head out on to the surface of a dangerous alien planet.

4 Clever Donna! Donna worked out that all the numbers were dates – and helped solve the mystery of Messaline.

5 The planet Messaline. Although a barren and hostile planet at first, by the end it was lush and fit for humans.

Turn over for next episode secrets!

WHO WATCH!

Find out what's in store for the Doctor and Donna this Saturday!

Introduction

This week, the daring duo take a flight of fancy back to the 1920s to meet one of Earth's most famous crime writers – Agatha Christie!

Meeting Agatha!

The Unicorn and

WORDS BY AIMEE GIBSON-ODD

1 Vanished!

In 1926, Agatha Christie **mysteriously disappeared** for 10 days. No one knows where she went or why, least of all the **distinguished author** herself!

The Doctor looks worried

2 On the case

Was her **memory** at fault? Did she have a **nervous breakdown**? Or perhaps it had something to do with a **gigantic alien wasp**?! The Doctor and Donna are determined to solve the mystery once and for all.

the Wasp

3 Whodunnit?

What's more, there's a **body in the library**, poison in the cocktails, tea on the lawn and a whole host of **suspicious characters**, all of whom could be the murderer. Not to mention a **Vespiform** thirsty for revenge!

Turn over for our special Time Agent tracker page!

DON'T MISS... this classic murder mystery with a sting in its tale. *The Unicorn and the Wasp* is on BBC One, Saturday 17 May.

HOW TO DRAW a Pyroville

Find out how to sketch this magma monster!

WARNING! THIS DRAWING'S REALLY HOT!

1. Join the dots on the right side of the grid to complete the outline of your Pyroville picture.

2. Now draw in the empty squares one at a time, using the outlines on the left side as a guide.

3. Finally, colour in your completed picture so it looks like the fiery one below.

This side should be a mirror image!

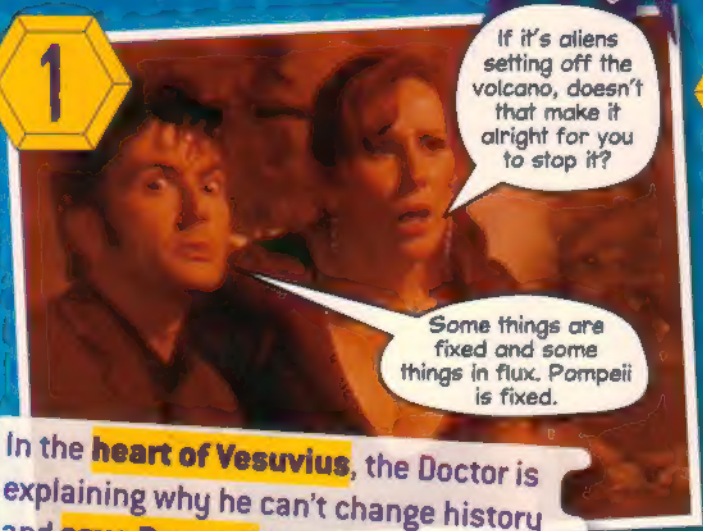
TALES from the TARDIS

Harri Evans' fave scene!

From: *The Fires of Pompeii* Scare factor: 4/5

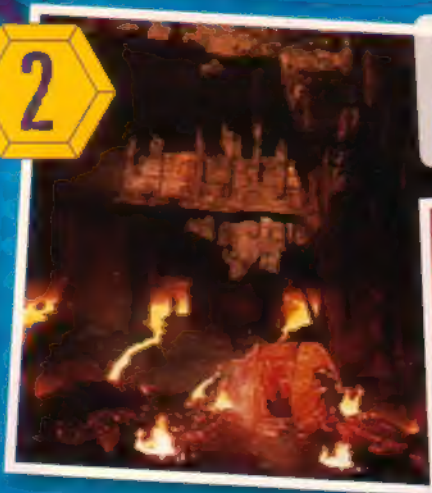
1



If it's aliens setting off the volcano, doesn't that make it alright for you to stop it?
Some things are fixed and some things in flux. Pompeii is fixed.

In the **heart of Vesuvius**, the Doctor is explaining why he can't change history and **save Pompeii** from the eruption.

2



Suddenly, the Doctor spots a strange-looking **pod** in the **distance**.

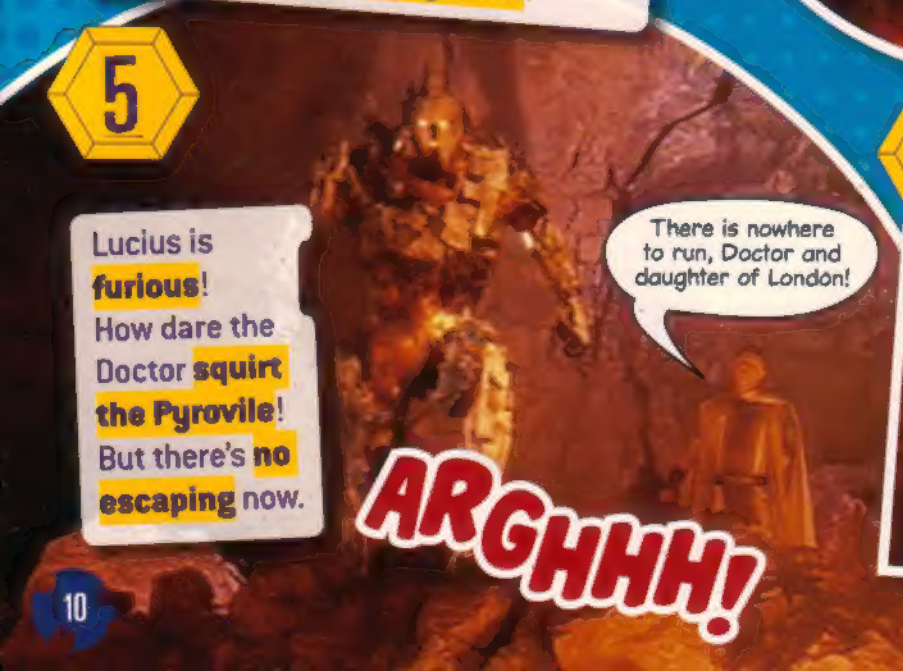
3

They try to get a **closer look** but run into a **fire-breathing Pyrovile**!

4

Thank goodness the Doctor's still **armed** with his **water pistol**!

5



Lucius is **furious**! How dare the Doctor **squirt the Pyrovile**! But there's **no escaping** now.

6

The Doctor knows the **Pyrovile** are **evil**, but wants to find out how much of a **threat** they are to **Pompeii and Earth**.

WORDS BY MEL BEZALEL

COOL WHO STORIES EVERY WEEK!

7

The Pyrovile plan to make **Earth** their **new home**, so the Doctor locks himself and Donna inside the pod.

8

That's why the soothsayers can't see the volcano – there is no volcano!

It's bad news. The Pyrovile are stealing **Vesuvius's power** to convert **millions of humans** into their own kind!

9

If Pompeii is destroyed, it's not just history, it's me. I make it happen.

Oh my god.

The Doctor has a **terrible choice** to make – save Pompeii or save the world!

10

KA-BOOM!

Donna desperately wants the people of **Pompeii** to live, but the **Earth must come first**. Together, they **activate the volcano** – knowing they'll probably die.

11

NO!

The Pyrovile are **enraged** – the Doctor has **sabotaged** their grand plan!

12

Instead of the **pod exploding** inside Vesuvius, it **zooms** out! It WAS an **escape pod** – the Doctor and Donna are **safe**!

zOOOM!

13

But there's no time to **celebrate**, they've got a **volcano on their tail**!

14

GASP!

The **poor people** of Pompeii have never even heard of a **volcano**, but it's about to **destroy their city**.

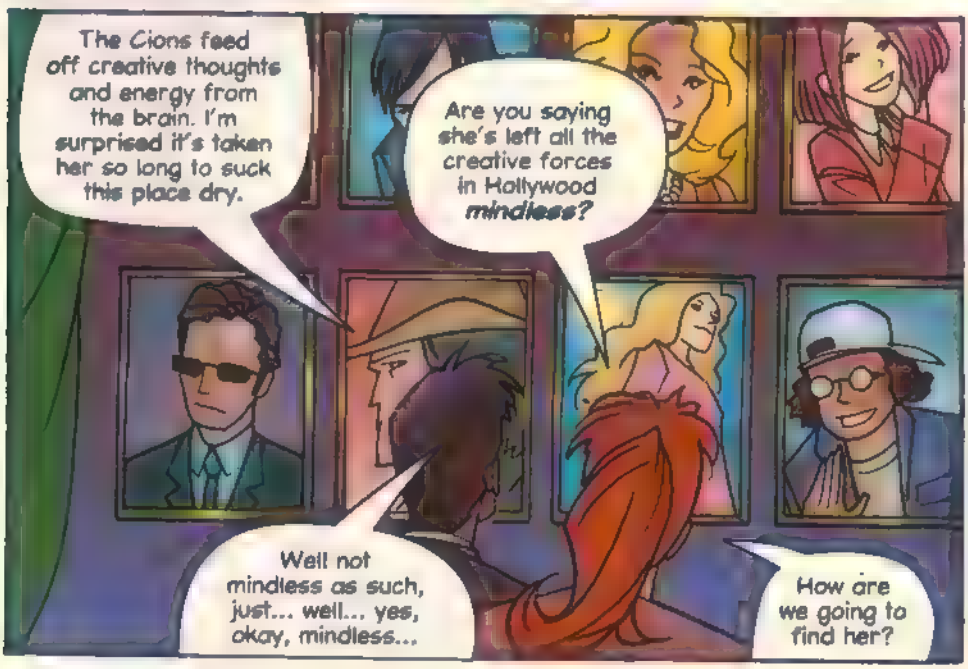
Oh no you don't, you overgrown *iceberg!*
Script BRENDAN SHEPPARD
Art JOHN ROSS
Colours ALAN CRADDOCK
Letters PAUL VYSE

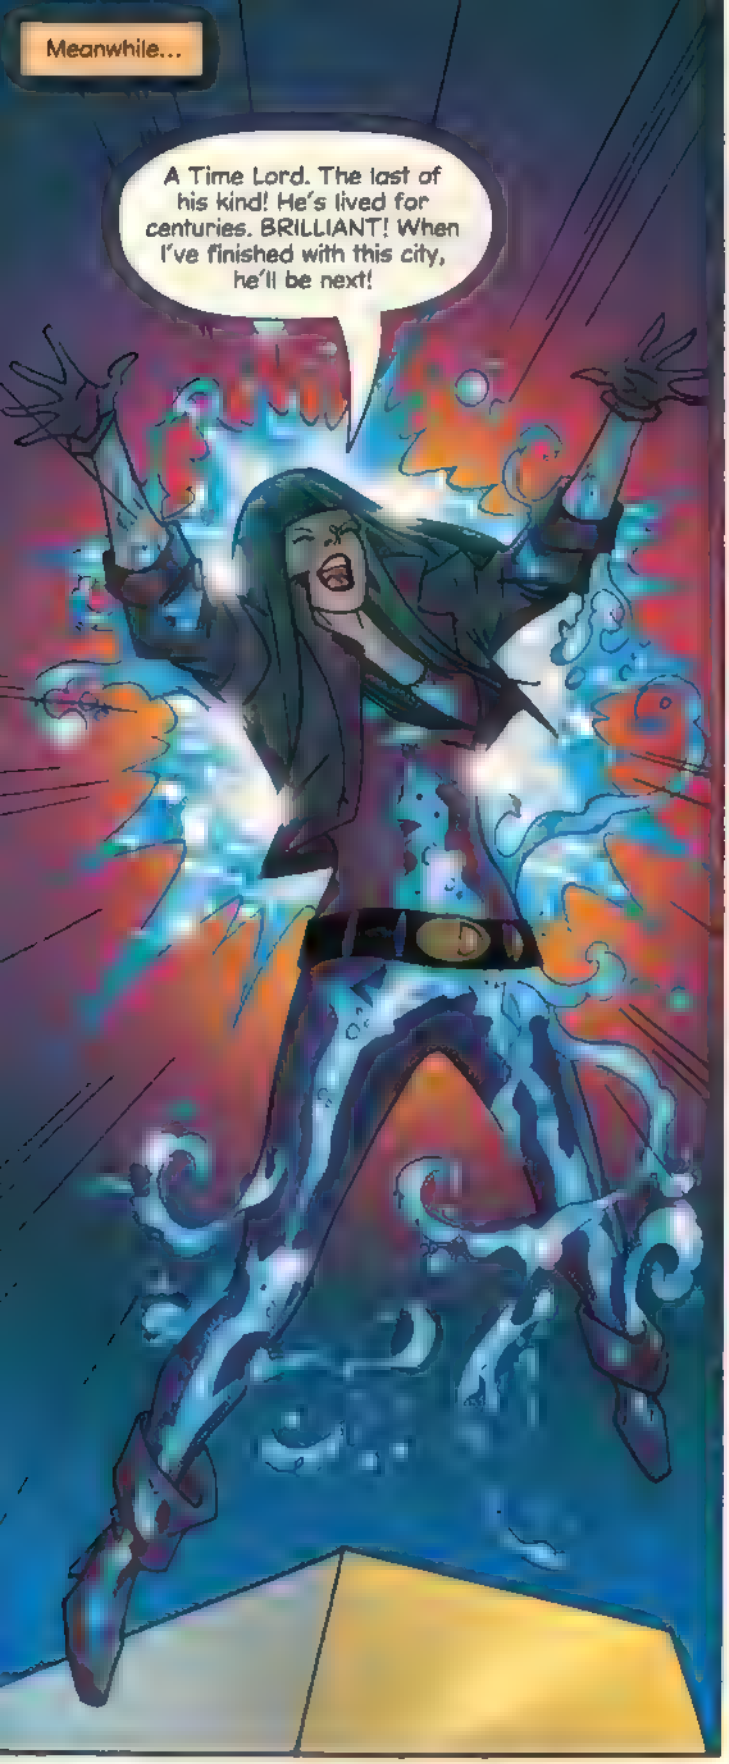
Where did she go?
You interrupted the plasma exchange!
You *what?*

Did you see those strands inside her body? They are what keep her alive. Interrupt *those* and it's like someone sticking their finger in your eye.
Ouch!

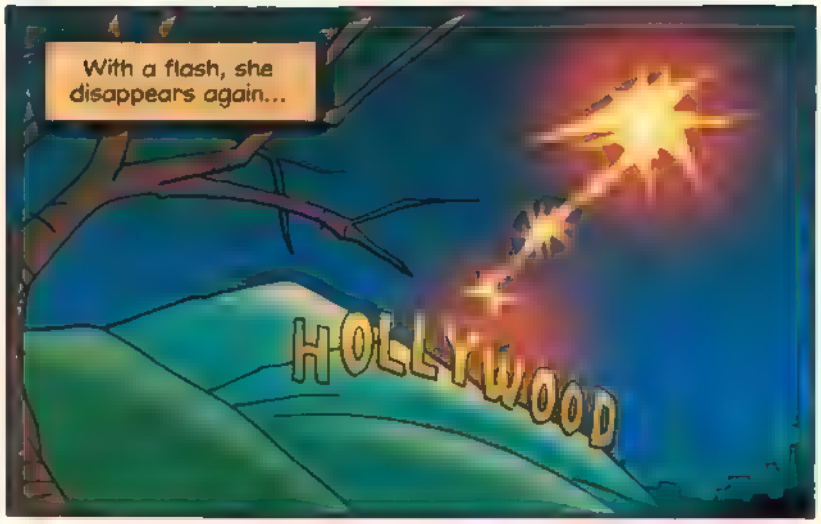


The Cions feed off creative thoughts and energy from the brain. I'm surprised it's taken her so long to suck this place dry.
Are you saying she's left all the creative forces in Hollywood *mindless?*
Well not mindless as such, just... well... yes, okay, mindless...
How are we going to find her?

Wherever she is, she's not far away...

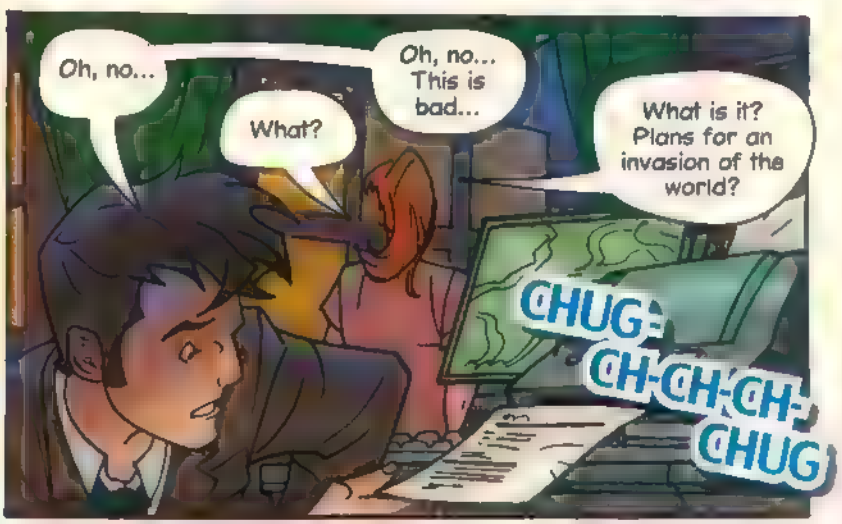


Meanwhile...
A Time Lord. The last of his kind! He's lived for centuries. BRILLIANT! When I've finished with this city, he'll be next!

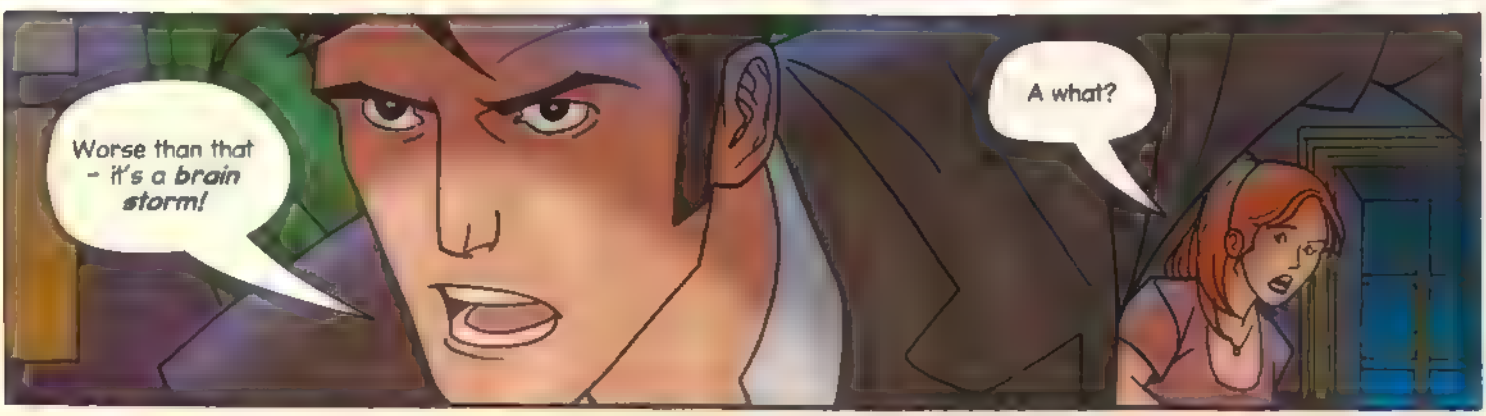


With a flash, she disappears again...
HOLLYWOOD

Haven't you got a better way of seeking out an alien than searching through their paperwork?!
She must have some kind of plan otherwise she wouldn't be sticking around! Ah-ha!
Vreeeeeep!
What?



Oh, no...
What?
Oh, no... This is bad...
What is it? Plans for an invasion of the world?
CHUG-CH-CH-CH-CHUG



Worse than that - it's a brain storm!
A what?

Read the email. We've got to get back to the TARDIS!
What's a brain storm?!
'This is just to say that I'm really looking forward to our brain storm with you tomorrow night and, as you are the last great talent in this city, I'm looking forward to feeding off your creativity...'
Oh that's just not funny...
DONNA!
Wait a minute – the 'last great talent'... Oh no!
Meanwhile, Amelia is still hungry...
One last feed...
Listen, if you do this for me I promise I'll replace your lateral balance cones.

I don't believe it!
How can you be sure she's here?
AMELIA!
Doctor... Welcome...
LEAVE HIM ALONE!
Why are you doing this? I've heard of rich pickings but this is just silly!
I am Seer, I am the last of my kind...
Yes, I know how that feels...
You don't need to do this. Your race – the Cions – I remember them. Such a beautiful planet. You were a peaceful race living off the plasma your world naturally produced.
And now these humans are all I have left!

Well, that and the internet.
The internet? Doctor, kind of life and death situation here, there's no time to go *surfing*.
If you want to stay here on Earth, I can make you a simple interface that will allow you to get the creative plasma energy direct from the internet.

Then maybe you can help rebuild this town and *restore* those you have sucked dry.
What do you say?
Since my world was destroyed, I have trusted no-one, Doctor.
No need for trust, Seer. Just try it out!

Very well, Doctor.
By the way, Mr Alan Crawford - a pleasure to meet you.
Er... Thanks...

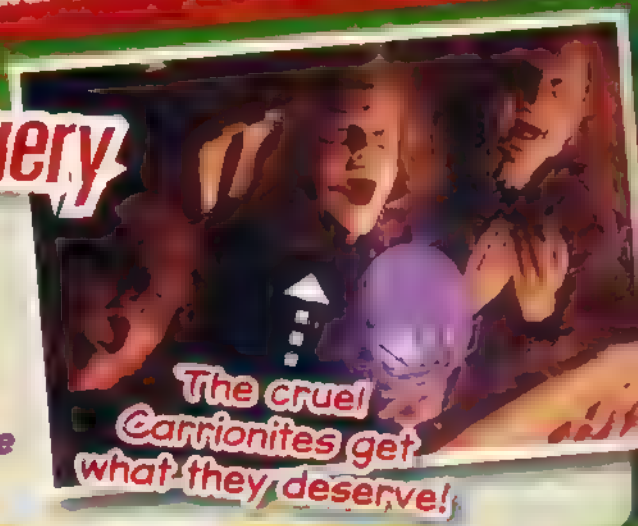
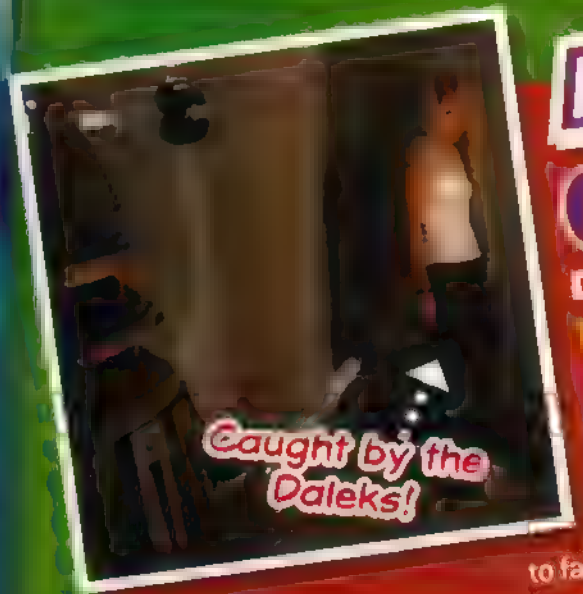
Carrionite query



Q **What happened to the Carrionites after Martha and Shakespeare closed the portal in *The Shakespeare Code*? Alex Kemsley**

A Once the **words of power** were uttered by **Shakespeare** on the stage of the **Globe Theatre**, the wicked wraiths were all sucked back into **Deep Darkness**, where they had previously been **trapped** by the all-powerful **Eternals** for billions of years. And luckily, now that Doomfinger, Bloodtide and Lillith are **trapped in a crystal ball** in the TARDIS's **attic**, there's nobody left who can ever release them. Phew!



Dastardly Daleks

Q **Have the Daleks ever captured any of the Doctor's companions? Frankie Donnelly**

A [illegible], Frankie! Rose was transported to the Dalek ship in *Bad Wolf*, but she was just the latest in a long line of TARDIS travellers to fall into the Daleks' evil clutches. In fact, in the very [illegible] Dalek story, the Doctor and all his companions were imprisoned in the Dalek city. Since then, the pesky pepper pots have locked up, interrogated, tortured and been generally horrible to almost all of the Doctor's friends [illegible]

DAD SHOCK!
Calling all Time Agents,

Are you ready for the latest news from the **Doctor Who Adventures** gang?

Our new issue is **out today** and is packed full of **monster shocks and scares**. It comes with a free **Doctor's dress-up set**, so you can be just like your top **Time Lord**. Put on the Doctor's **glasses**, pin the **badges** to your jacket and get blasting with that **sonic screwdriver**! Allons-y!

Wasn't **The Doctor's Daughter fantastic**? What a lot of running! We loved meeting **Jenny** and the bubbly **Hath**. Half-fish/half-man - **all brilliant**! But how sad was it when **cruel Cobb shot Jenny** and the Doctor thought she'd died? Thankfully she came **back to life**, but we wonder where in the universe Jenny has **jetted off** to now? You can read about our **five favourite bits** in this week's issue.

If you're dying to find out what's in store for the Doctor and Donna **this Saturday**, check out our top-secret preview feature on **The Unicorn and the Wasp**. The Doctor is set to meet the most famous crime writer ever - **Agatha Christie** - and a huge alien wasp called a Vespiform. Yikes!

Also in this week's issue, you'll find **exclusive posters** of **Martha and the Hath**, **Ross and a Sontaran**, the **Doctor and his daughter**, and a **foul-faced Pyrovile**. And you can find out **how to draw** a fully grown Pyrovile in this week's art attack. But be warned! Your drawing will be **really hot**.

Talking of heat, temperatures rocket in this week's **Tales from the TARDIS** when Donna and the Doctor enter the **heart of Vesuvius** and their pod gets roasted by the **mighty magma monsters**.

We've also got a **TARDIS gallery** with our favourite police box pics by you and an **Adipose mask** for you to wear. Find out **how Halpen became an Ood** in this week's **Confidential Extra**. And if you're fond of the fronds, don't forget to enter our **amazing Ood-head** competition. Missing a token? Don't worry as we're going to print a **bonus one** next week.

All this and loads more!

See you next Thursday for more Who news!

The DWA Team

DID YOU KNOW?
The **Source** on planet Messaline is a **third-generation terraforming device**. The original colonists left it there in a **transit state** but war broke out before they could use it to **rejuvenate the planet's ecosystem** and make it habitable.
